

Multi Line Edit Tool

Mass-Edit +200 Line Items in a Single Click*

Built for
**ORACLE
NETSUITE**
Native SuiteApp

*Based on your NetSuite account setup

Overview

The Multi Line Edit Tool enables NetSuite users to simplify and streamline their NetSuite transaction lines through mass-editing in a single click. This innovative SuiteApp helps to save time, boost efficiency and streamline transaction processing, transforming the entire process into a seamless spreadsheet-like experience.

In the past, this task would consume at least 15 minutes, but with the tool, it's been reduced by over 95%.

King Business Interiors

Key Features

Accelerate Your Workflow

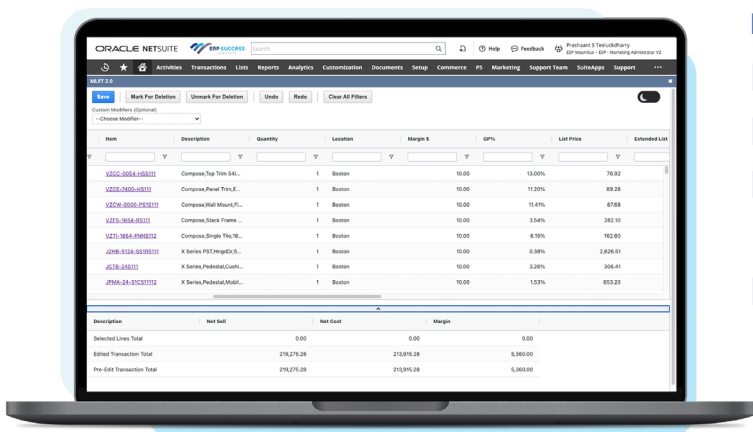

- | Mass update multiple transaction lines in a single action.
- | Filter and sort data to quickly locate specific transaction lines.
- | Effortlessly move and resize columns for a personalized view.

Enhance Efficiency and Productivity

- | Eliminate the need to navigate between multiple screens.
- | Reduce transaction processing time and minimize errors.
- | Empower users to handle large volumes of data efficiently.

Embrace User-Friendly Navigation

- | Intuitive interface for seamless operation.
- | Dark-mode enabled.
- | Familiar spreadsheet layout for effortless transaction management.
- | Keyboard shortcuts for quick data manipulation.

Enhanced Filtering and Sorting with Detailed Criteria

The detailed criteria feature empowers NetSuite users to refine their transaction searches, enabling them to focus only on the relevant entries. This granular filtering capability simplifies the modification of complex and extensive transactions, eliminating the need to export and manipulate data externally.

With the detailed criteria feature, NetSuite users can seamlessly manage their transactions within the system, maintaining data integrity, security, and compliance.

Multi Line Edit Tool in Action

King Business Interiors has harnessed the Multi Line Edit Tool to significantly enhance their processes. Whether they needed to modify 50 or 200 lines in a vendor-specific quote nestled within a 500-line document, the impact has been remarkable. “In the past, this task would consume at least 15 minutes, but with the tool, it’s been reduced by over 95%. This newfound efficiency has allowed us to allocate

our time to more strategic activities, making it an invaluable asset for anyone tasked with managing extensive data sets. The solution has greatly improved our data management and productivity, allowing us to deliver a more efficient and effective service to our clients,” mentions King.
